**Attachments:**

Subject to you guys getting an entity formed with participants that do not cause a conflict of interest, I have offered to provide you access to low cost SF lots in the development including but not limited to the out right donation to the non profit of a minimum of 5 developed lots. In addition, the CDC will participate in at least 15% of any developer fees and 15% ownership in any portion of the Laureland development property that is later used for retail or commercial on the frontage road to the development, Camp Wisdom. You have agreed to identify, recruit and empower minority Dallas based sub contractors and suppliers to participate in the construction of the town homes and the SF lots. You have agreed to actively support the development activities including support for the affordable housing portion of the development. Without your successful support for the development, any agreement we have on laureland is of no force nor effect.

The final zoning hearing is the 22nd of September. We need to see your support at the council meeting. There are upcoming meetings in October to approve the tax credits that you will also be required to attend. As soon as I get and entity from you I will reduce the agreement to a contract around the items in this e-mail.

Thanks,

Bill
